

This book is unique in the annals of Catholic literature in Sri Lanka. It not only narrates the author's intense spiritual odyssey towards the Catholic priesthood which eludes him when on the verge of crossing its threshold, but is also punctuated with penetrative insights regarding the Catholic Church. This treatise is furthermore a rich compendium of the momentous events that shook the country, Italy and the world in the nineteen fifties and sixties.

"I whole heartedly recommend this book to all interested readers irrespective of any religious affiliation. I hasten to add that this insightful treatise throws a flood of light not only on the domain of religious thinking, but also on the field of existential knowledge. Being so illuminating it will surely act as an eye opener to the many".
